

Pinwheels for Prevention®

Impacts of donor gifts

Growing Compassion \$20,000

Your gift can fund:

- RETCAM- As retinal hemorrhage (RH) is the most frequent and reliable finding of abusive head trauma (AHT), an ophthalmology consultation should be systematically required in suspected cases. Full retinal examination through pharmacologically dilated pupil can detect the type and pattern of RHs, helping to distinguish abusive from non-abusive head trauma.
- The implementation of future programming benefiting work with children who experienced abuse or neglect and human trafficking victims.

Nourishing Strength \$10,000

Your gift can fund:

- Specialized training for staff who investigate child abuse and neglect.
- Forensic video interviews cloud storage, so that all members of the child's care team—from social workers to attorneys—can access the child's story as needed anytime, anywhere.
- The ongoing upgrading, service and maintenance for critical program equipment. Such as the forensic exam photography system and interview recording equipment

Cultivating Courage \$2,500

Your gift can fund:

- Training on Child and Family Traumatic Stress Intervention (CFTSI), an evidence-based treatment modality. CFTSI is designed to reduce traumatic stress symptoms and the risk of onset of Post-Traumatic Stress Disorder when implemented in the peri-traumatic period (e.g. 30-45 days after a potentially traumatic event or after recent disclosure of physical or sexual abuse).
- Subscription to National Children's Alliance database system for tracking and reporting cases.

Seeding Resilience \$5,000

Your gift can fund:

- Enrichment opportunities, programs and services for children who have experienced neglect or abuse.
- Specialized training for Multi-Disciplinary Team (MDT) including Forensic Pediatrician, law enforcement, District Attorney, Therapist, and other staff members.
- Upgrades and warranties on special equipment used during interviews and forensic exams.
- An annual supply of art therapy supplies, books, toys, games, and other experiential child-friendly items to improve the child's experience during therapy and ongoing behavioral health sessions.

Household of Hope \$500

Your gift can fund:

- Car seats, luggage, clothes, diapers and nourishment for kids visiting and receiving care. Belongings bag filled with personal hygiene and comfort essentials.
- Membership in Child Advocacy Centers (CAC) of California chapter of National Children's Alliance, who provides Training, Technical Assistance, and Support for CACs in California Materials for family resource packets handed to each caregiver.

These examples showcase the incredible impact your support brings to life. Thanks to donors like you, we can help vulnerable children. We are thrilled to share more. Reach out and let's continue making a positive difference together!
